EXPERIENCE

Software QA Analyst at BE & OE- Islamabad - Pakistan
2020 - present

As a Software QA Analyst, I focus on ensuring software quality by designing and executing test plans, identifying defects, and collaborating with developers for resolution. I conduct various tests, communicate issues effectively, automate tests.

QA Tester at TestSouls - Islamabad
2020- 2022

As a Software Manual QA Tester in my previous role, I conducted manual testing to ensure software quality. This included creating and executing test cases, identifying defects, and collaborating with developers for resolution.

QA Support Assistant at Kadam Consultants- Islam
2017- 2019

I provided essential assistance to the QA team in ensuring software quality. My responsibilities included aiding in the creation and execution of test cases, assisting in defect identification and documentation, and supporting collaboration with developers to resolve issues.

EDUCATION

Islamia College University Peshawar
Bachelor of Science
